About Axe Compute Inc.

Axe Compute Inc. (NASDAQ: AGPU) is a virtual neocloud AI infrastructure platform built on a fundamental premise: AI innovation should not be constrained by infrastructure supply and performance limits. Axe Compute gives enterprises and AI innovators choice across hardware, geography, and deployment speed. Axe Compute also operates a Strategic Compute Reserve that translates to enterprise GPU access, converting reserve holdings into deployable AI infrastructure capacity. Axe Compute is among the first publicly traded companies delivering this model at scale. Learn more at [axecompute.com](#).
